| Perú | NO | -No se cumplieron promesas a demarcar el territorio -AIDESEP está considerando presentar una queja | In Peru, the Amazonian indigenous organisation AIDESEP has growing concerns over the treatment of rights and land issues in the process to develop a national Forest Investment Strategy financed by the Forest Investment Programme (FIP). In short, AIDESEP has been dismayed that previous pledges to address land tenure with adequate national budgets for demarcation and titling were broken when the government unilaterally redrafted the investment plan without consultation at the start of 2013. AIDESEP is now considering use of various complaints mechanisms if its safeguard concerns are not addressed. [8] |
| Suriname | NO | | In countries like Suriname, despite repeated redrafting of national readiness proposals, government plans for REDD+ continue to omit any meaningful measures to uphold the land and territorial rights of forest peoples. [5] |

| República Democrática de Congo | NO | La Sociedad Civil se retiró de REDD del Banco Mundial | GTCR Civil society groups in DRC suspend engagement with National REDD Coordination Process 23 July, 2012 In late June civil society organizations tracking REDD+ policies in the Democratic Republic of Congo (DRC) sent open letters to the World Bank's Forest Carbon Partnership Facility (FCPF) and to the DRC's Environment Minister expressing grave concerns about the lack of effective public and community participation in national REDD+ policy-making (see links below this article). The "REDD Climate Working Group" (GTCR), which authored the letters and is composed of a broad range of national and local environment and development NGOs in DRC, is insisting on the reorganisation of REDD governance structures in DRC to ensure decentralisation and ensure meaningful participation by civil society and forest peoples in forest and climate policy making at all levels. |
